PROFILE SUMMARY

- Skilled in using Excel for complex calculations, data analysis, and creating interactive reports.
- Experience in automating tasks in Excel to save time and increase efficiency.
- Knowledge of using Power Query to clean and transform data for analysis and reporting.
- Proficient in creating dashboards and reports in Power BI to visualize data and track business performance.
- Experience working with MySQL to query, manage, and manipulate databases for better data analysis.
- Able to build reports and dashboards to track key business metrics, making data easier to understand.
- Familiar with using DAX to create advanced calculations and measures for detailed analysis.

TECHNICAL SKILLS

- Advanced Excel
- Visual Basic Application (VBA Macros)
- Power BI
- Advanced MySQL
- Data Analysis Expression
- Python
- Power Query

PROJECT WORKED ON

- **Sales Performance Dashboard for a Retail Chain**

Tools Used: SQL, Power BI, Power Query, Excel

Description:

- Extracted transactional data using SQL with joins and window functions.
- Cleaned and transformed data using Power Query.
- Created a dynamic dashboard in Power BI showing key metrics like Total Sales, Profit Margin, Region-wise Sales, and Product Performance.
- Built slicers for time, region, and category filters.

- **HR Analytics Dashboard for Attrition Prediction**

Tools Used: Excel, SQL, Python, Power BI

Description:

- Combined multiple HR datasets using SQL joins and CTEs.
- Built predictive attrition model using logistic regression in Python.
- Created Power BI dashboard showing attrition risk by department, role, and satisfaction.

- **VBA email automation**

Tools Used: Advanced excel, Visual Basic Application (VBA), Macros

Description:

- Developed an Excel VBA macro to automate daily/weekly email reporting via Outlook.
- Automated sending of personalized emails to multiple recipients with dynamic subject lines, email bodies, and file attachments.
- Used Excel tables as a data source to populate recipient-specific information
- Included features like conditional email sending, status logging, and error handling to streamline the workflow.

EDUCATION

- I have completed a Bachelor of Pharmacy from KLE College of Pharmacy, Belgaum.

CERTIFICATION

- Certified Microsoft Power BI-Data Analysis from udemy platform.
